

**MEMORANDUM**

To: Bonnie Lavelle, Chris Weis  
From: Adrian Bradley  
Date: November 19, 1999  
Project: Vasquez Boulevard & I-70 Site, Phase III  
RE: Selection of alternative sample for use during indoor dust performance evaluation  
cc: Project Files

In the memorandum dated November 16, 1999, several site soils from the yard soil sampling were identified for use as performance evaluation samples during the indoor dust investigation. Due to insufficient sample material, an alternate soil sample has been selected. This sample will be prepared and certified according to the procedure described in the November 16, 1999 memorandum. The following sample will be used.

Sample Identification Number	As concentration (mg/kg)	Pb concentration (mg/kg)
3-02747-B	294	410
